

Call For Papers

Life Sciences Society Computational Systems Bioinformatics Conference Stanford, CA • August 14-18, 2006

You are invited to submit papers to the 2006 Life Sciences Society Computational Systems Bioinformatics Conference (CSB2006). The conference's goal is to facilitate exchange of ideas and collaborations between computer scientists and biologists by presenting cutting-edge computational biology research findings. Such research has an interdisciplinary character. Computer science and mathematical modeling papers must contain a concise description of the biological problem being solved, and biology papers should show how computation or analysis affects the results. Topics of interest include (but are not limited to):

- Microarray Data Analysis
- MicroRNA and RNAi
- Pathways, Networks, Systems Biology
- Biomedical Applications
- Biological Data Visualization
- Protein Structures and Complexes
- Biological Data Mining
- Pattern Recognition
- Microbial community analysis
- Mathematical and quantitative models of cellular and multicellular systems
- Synthetic Biological Systems
- Sequence Alignment
- Evolution and Phylogenetics
- Functional Genomics
- High Performance Bio-Computing
- Comparative Genomics
- SNPs and Haplotyping
- Promoter Analysis and Discovery

Full papers are limited to 12 pages, single-spaced, in 12-point type, including title, abstract (250 words or less), figures, tables, text, and bibliography. The first page should give keywords, authors' postal and electronic mailing addresses. Papers must not have been previously published and must not be currently under consideration for publication elsewhere. Papers will be submitted electronically in MS Word, postscript or PDF format.

The conference will also accept short papers, limited to four pages. These papers should describe new research activity in which a complete set of results may not yet be available. Full and short papers will have 25 and 15 minutes, respectively, of presentation time. Paper submissions can be made at the site <http://csbl.bmb.uga.edu/conference/CSB2006/webconf/>

Medline indexes papers appearing in CSB Proceedings. A select subset of accepted papers will be invited to publish an extended version in the Journal of Bioinformatics and Computational Biology. The Best Paper will be selected by the program committee and announced at the awards ceremony.

Additional information will be posted at <http://www.LifeSciencesSociety.org> as it becomes available.

Important Dates:

- Submission deadline: March 19, 2006
- Paper acceptance decision: May 1, 2006
- Final revised draft due to publisher: May 21, 2006

Send e-mail enquiries to CSB2006@LifeSciencesSociety.org. Information about poster submissions and tutorial proposals will be posted at <http://www.LifeSciencesSociety.org>

CSB2006 Program Committee Members

Tatsuya Akutsu, Kyoto University
Vineet Bafna, University of California, San Diego
Tim Bailey, University of Queensland
Serafim Batzoglou, Stanford University
Chris Bystroff, Rensselaer Polytechnic Institute
Amar Das, Stanford University
David Dixon, University of Alabama
Jake Chen, Indiana University
Terry Gaasterland, University of California, San Diego
Robert Giegerich, Universität Bielefeld
Eran Halperin, University of California Berkeley
Wolfgang R. Hess, University of Freiburg
Ivo Hofacker, University of Vienna
Daniel Hudson, Tübingen University
Wen-Lian Hsu, Academia Sinica
Tao Jiang, University of California Riverside
Sun-Yuan Kung, Princeton University
Dong Yup Lee, Singapore
Cheng Li, Harvard School of Public Health
Jie Liang, University of Illinois at Chicago
Ann Loraine, University of Alabama
Bin Ma, University of Western Ontario
Peter Markstein, Hewlett-Packard Labs, Co-Chair
Satoru Miyano, University of Tokyo
Sean Mooney, Indiana University
Ruth Nussinov, National Cancer Institute
Mihai Pop, University of Maryland
Isidore Rigoutsos, IBM TJ Watson Research Center
Marie-France Sagot, Université Claude Bernard
Mona Singh, Princeton University
Victor Solovyev, Royal Holloway, University of London
Chao Tang, University of California at San Francisco.
Olga Troyanskaya, Princeton University
Limsoon Wong, Institute for Infocomm Research
Ying Xu, University of Georgia, Co-Chair
